Firm's hot new designs revealed

michael.carroll
@motorcyclenews.com

SHOEI has just revealed the latest colours for its X-Spirit, Raid 2 and XR1000 helmets.

Pick of the bunch is the X-Spirit Glory (main picture) which joins a range of other X-Spirit colourschemes and race replicas. The

X-Spirit is Shoei's top-of-the-range helmet and comes with features such as washable cheek pads and a shell that includes carbon-fibre. The X-Spirit scored four out of five stars in the government's SHARP helmet tests.

The XR1000 scored three stars while the Raid 2 matched the X-Spirit with four stars in the safety tests.

Race replicas include Elias,

Kiyonari, Kagayama, Locatelli and Vermeulen. There's also a brilliant Norick Abe replica but Shoei has no plans to import it to the UK. Abe, who was killed in a road accident in 2007, was one of Valentino Rossi's heroes and the world champion dedicated his 2008 title to the former GP star.
